

# The perfect fit for reliable protection

## Long-Lasting, Custom Fitted Hearing Protection

EarzON® custom hearing protectors are a great addition to any hearing conservation program. When workers have earplugs that have a comfortable fit, are personalized and easy to use, they are motivated to protect their hearing, on and off the job. Using a digital laboratory manufacturing process, CavCom models each hearing protector individually to provide a superior fit. With a variety of colors, materials and NRRs offered, there are EarzON® custom earplug options ideal for every worker. Your return on investment is quickly evident with years of use and zero waste compared to daily disposable earplugs. EarzON® only fits one way, the right way!

Cost Savings

Consistent Protection

Less Waste
